ACTIVITY PROGRAM

CORONA

1. PURPOSE:

To cover the cost of additional work resulting from the [REDACTED] Review Committee recommendations on Contract No. RT-100. This Contract covers the FY 1959 Program only.

25X1A

2. DESCRIPTION OF WORK OR SERVICES REQUIRED:

Work to be performed hereunder concerns the discovery of causes and the solution thereof for recent malfunctions. A large portion of the costs are concerned with qualification, requalification and multiple testing of component parts. Attached (Appendix A) is a list of detailed work to be performed by the Prime and subcontractors to accomplish the above. The estimated price for completion of this work, based on conversations held on 6 January 1960 is [REDACTED] which does not include an additional [REDACTED] for General Electric field service which it is anticipated will be charged to the White program. The Contractor is presently without funds to cover the costs of this work, but has been authorized to proceed. It is recommended that [REDACTED] be added at this time to cover costs through 15 February 1960.
